CHAPTER 1

THE TYPES OF PROPHETS

This chapter deals with prophets and prophecies as the purpose of this chapter is to help readers better understand my role as a prophet. Very little is known about God's prophets, so I'll spell out the various kinds of prophets found in the Bible.

There are good prophets and bad prophets. There are self-proclaimed prophets and people called or raised up by God to be His prophets. Having proper knowledge of the different types of prophets will grant readers a better understanding of what God has done, is doing,

and about to do on earth.

Self-proclaimed prophets are those who have fantasies of being prophets and want to be prophets for self-gain or self-esteem, and they usually have problems with pride and arrogance. Though some of these people gather followings, they have not been called by God to be prophets. Many of these self-proclaimed prophets occasionally have a few of their own prophecies happen, but most of their them never occur.

Others are called by God to be prophets. Those who are called to be prophets are mature in God and usually don't want to be prophets. These people don't just see what is going to happen in the future; a major part of their roles as prophets involves boldly rebuking the wicked and warning them of God's impending judgment. Their messages always contain hope that the wicked will repent so that God will relent from future judgment.

A true prophet always deals with the evil practices of the wicked and the rebellious, while self-proclaimed prophets never deal with the wicked; they just try to predict the future about individuals or world events and exalt themselves.

Why is it so important to know all about prophets? Most self-proclaimed prophets are involved with false doctrines, and that makes them false prophets. People place hope in their prophecies only to later learn they've been lied to. Many people rearrange their lives and change their plans from these prophecies and later suffer disaster or ruin when the false prophecies do not come about.

Just as there are false Bible pastors and teachers, so are there false prophets. False prophecies can lead you away from the truth and into false doctrines; they will steer you away

from the truth or even inhibit you from learning the truth. It's important to

recognize a false prophet to avoid bad decisions.

True prophecies can help you avoid much disaster and suffering; they can help you make decisions for the future and minimize any sufferings you might incur. True prophecies from God are intended to correct you and help you avoid impending disasters; they are usually accompanied by pleas for you to turn away from wrong doings and thus help you avoid disasters.

A true prophecy usually involves a plan that will allow those who follow it avoid disasters. A true prophecy will always bring you closer to God and to salvation. It's important to recognize a true prophecy.

What Is a Vision?

A vision from God takes the form of images, sounds, and sensations from the

Holy Spirit: it is very much like a daydream, not at all like dreams in sleep. When you receive a vision, you are very conscious and awake, but you are not directing it or controlling it. Visions are not your own imaginations. God-given visions don't happen when you're drunk or on drugs. I received my visions on my lunch break while in my mail truck in July 1994 on some very hot days.

There are different types of visions; most all happen when you are awake. One type of vision is like a video that can last a few seconds to a few minutes. Another type of vision is a still-frame vision, likened to a single photograph or painting. They can last for up to several seconds.

Another kind of vision occurs when you're asleep, but they are not your own dreams. These sleep-visions happen to a lot of people all the time. When one occurs, you are

usually awakened immediately following it, and you are aware that the vision had been sent to you and had not come from your own subconscious. These sleep visions can be video or still-frame visions.

Another type of video or still-frame vision includes sounds or sensations or both that you hear or feel not with your ears or body but with your mind. These are difficult to describe to anyone who has not experienced them.

With all the visions that are from God, His presence is very much with you when one has occurred. You instantly know it is from God, and you keep seeing or hearing or sensing parts of it all day long, sometimes lingering for days. You will never forget a God-given-vision. A vision will have a profound effect on your spirit; a God-sent vision will become part of your life; you will never forget any bit of it.

You may not understand much of the vision at first, but generally, in time, you will gain complete understanding of that vision.

CHAPTER 2

THE VISIONS

This chapter offers quick readings of each vision and short insights into the twenty-five visions I have received from God. The visions are written exactly the way I saw them, and in the order I received them. I saw all these visions in a five-day period in July 1994. Later, I received explanations for each vision, and they follow my retelling of the visions.

Forty Year Drought

In a vision the Holy Spirit gave me, I saw all the Earth being baked by incredibly hot weather. Each year, the weather became hotter and

hotter - heat wave followed heat wave, and they were merciless and unrelenting. All this continued to happen until the super-hot summers reached their assigned limits. I don't know what the temperatures were, but what stood out in this vision was the heat's intensity. Temperatures continually set new records.

I could feel the heat in this vision. I saw a well-watered earth turned into a dry, barren wasteland; a global desert that was very dusty from being baked in the sun. I didn't see very much vegetation and weeds; the land had been stripped of life. These superheated temperatures were unrelenting until the forty years had passed.

I also saw winters having temperatures that climbed into the hundreds during certain weeks, but during other weeks, the temperatures dropped down to thirty below. The winters were so cold that thousands froze; I saw frozen corpses across the earth. I didn't receive much detail about these freezing killer

winters, but most winters were very hot and dry.

These very hot summers will be as merciless as the freezing winters; I saw thousands across the globe dead from the unrelenting heat. At first, these killer summers will take only a few thousand lives, but later, the hot summers will kill millions. These summers will last longer in duration than the normal months of summer.....

Economic Recession

An economic recession will occur when the U.S. and Foreign stock markets suffer a major blow. I saw the markets tumble to close to half off their peak. I didn't see any details of this coming crash or what caused it, but I did see a long recession before the stock markets climbed back. It's like the World never fully recovers from this recession. I don't know how

long the recovery will take, but that it would be long and slow. Along with this vision came a strong sense that there would be a few years of prosperity during or after the recovery. I also had a strong sense that this recession would last ten years. Following this short-lived recovery will come a major recession that will cause worldwide monetary disaster for everyone throughout the earth. It's more of a depression not a recession.

My Understanding of the Economic Recession Vision

I have very little information concerning this recession. All I know is that it will be a severe recession taking several years to recover. Unemployment may go above 10 percent. I don't know when it will occur. I know that as America recovers or has recovered from this recession, there will be a ten-year period before

the total economic collapse begins. Many countries are going to struggle to recover from the first recession and may not ever fully recover. The entire economic world will suffer more than America. This first recession will not be isolated to just the USA. I know that a second recession will cause a final collapse to the entire globe. It will occur close to or after the beginning of the major drought, which will begin in 2019.....

Killer Viruses'

This is the most vivid, graphic vision I had. I saw killer viruses coming into the World. I do not know what strain of each virus is. I don't know how many different viruses are coming, but they will result in millions of deaths all throughout the earth. It seems that there are 3 distinct viruses. It may all be the same virus that only mutates.

I saw a pool of water in the shape of America. The pool was like a mirror, calm and peaceful, no ripples. I saw on one of the coastlines of the pool, a virus starts in a city and spreads across America, all the way to the other coast, rather quickly within a few days. The virus was like a single ripple in this pool of water not multiple ripples that sped to the edges of this pond. After a time, another ripple started from the opposite coast. It was another virus. After another period of time a third ripple began, another virus spreading the same way. Then my vision ended.

I understood that millions upon millions died, an unbelievable death toll. I saw many infected people survive these viruses. I saw that many who survived the other judgments not surviving these viruses. This will be one of the biggest killers of all God's judgments throughout the earth. Millions upon millions of people will perish due to these coming viruses.

It seemed that this vision of viruses reoccurred during other judgments and ended several years before the great drought ended. I also saw all the nations so fearful of the viruses that no one dared to come to come to America or travel to other countries.

My Understanding of the Killer Viruses Vision

The coming viruses will be the greatest cause of death in World, more than all the other judgments God will send. They will sweep across every continent, and the dead will number in the millions.....

CHAPTER 3

THE SURVIVORS

This chapter is the entire reason God instructed me to write this book; it is written for all those who will be among the survivors – the remnant. This chapter provides the way to survive all God’s judgments.

Though much of the book deals with my God given visions, this is not the purpose of the book. The book is not meant to scare readers but to allow God to move upon them to call out a remnant of survivors. Its purpose is to reveal what is happening and how to survive God’s wrath.

I have split this chapter into two sections. The first deals with faith, through which the remnant

will need to understand how to use faith in order to survive these judgements. I instruct what faith truly is and how it works. The second section is a message for the remnant. This message shows them how to use the faith that can be obtained in God and explains why they are required to understand what faith is and why faith is required to be a survivor.

Faith in God

This section of the chapter is lengthy because faith is a difficult subject to explain and understand. You will have to have faith in God to survive all these coming judgements. You must understand what faith is and how it works to properly use it. If you don't understand what faith is, you will be doomed.

Surprisingly, very few understand what faith in God is all about and how it works. Of all the

pastors I've known and heard, I've met only one who understands what faith is. That's pathetic in America. When Jesus lived on the Earth, very few people understood what faith is. Jesus had difficulty in teaching about faith.

In God's kingdom, faith is one of the six building blocks of the foundation God requires any individual to have to have a relationship with Him and obtain salvation. In Hebrews 6:1–2 (NKJV), we read,

Therefore, leaving the discussion of the elementary *principles* of Christ, let us go on to perfection, not laying again the foundation of repentance from dead works and of faith toward God, of the doctrine of baptisms, of laying on of hands, of resurrection of the dead, and of eternal judgment.

It is not my emphasis to touch upon any of the other five foundational blocks for having a new

life with God. In this book, I explain only faith, because without which it will be difficult or impossible for anyone to survive the coming judgments. For a more through explanation, see my book *God's Basic Doctrines*.

I am continually amazed at how the church is so ignorant concerning faith. Even I was for many years. In today's churches faith in God is misconstrued, terribly distorted, and improperly defined. In all my fifty years of walking with God, I have yet to hear in America a pastor, preacher, teacher, or prophet properly explain or define faith in God save one.

In every church I have attended, including Bible school, I heard people use the word "faith." When I ask them to explain what faith in God is, I never get a proper definition or even a close meaning. I have heard many interpretations of what people think it means, but only once have I gotten a correct definition.

Faith in God is the hinge of all Christianity.

There is faith, and there is faith in God. Faith in God is how everything works or operates between God and His believers. God requires all men to use faith in Him. Without faith, nothing happens between God and man. Without faith, God cannot do anything for anyone. Yet faith by itself is not what God solely requires. The phrase “faith in God” means placing your faith in God. Take notice that there is the word “faith” and there is the phrase “faith in God.”

I’ll define faith then I’ll define “faith in God. The word faith is a word that comes from the Greek language which the Romans adopted to be their spoken language. The Romans used the word faith a lot so for them they understood its meaning. This Greek word is not found in most other languages thus its meaning becomes lost in translations.

Faith is a word that must be used in conjunction with another word when being used in the Bible. Thousands of people constantly ask why they

never get results from God. One main answer is because they have no understanding of what faith in God is let alone how it works. They do not have the correct definition of faith.

So here we go. There is plain faith and there is faith in God. The church teaches people to put faith in the Bible, but the Bible teaches us to put faith in God. The big mistake everyone makes is placing faith in the Bible. A gross error comes from the failure to understand when the Greek phrase “faith in God” is translated into English. This error happens when translators translate one word for one word. Many times, the precise definition of a word becomes lost in translation or is improperly translated. Translating the simple Greek word “faith” is the mistake that everyone has stumbled over when translating it into today’s languages. In Jesus days on Earth, translation was also a problem. Faith comes from the Greek language which is not the common tongue for

the Jewish Hebrews. Very few of the Jewish people had a clear definition of this Greek word – faith.....

The Remnant

This is the second part of this chapter. To be sure you survive the coming disasters, you will have to gain faith in God and receive His guidance. You're going to have to get God to speak to you, and that will require prayer. No one will be able to do this work of faith for you. It's through faith that you will be instructed where and when to go. The more faiths that you have with God, the better off you will be. Each one of us will have to do the hard work of praying and fasting to ensure our survival.

I believe there will be several groups of the remnant, not just one, that God will place in key locations across America and across the Earth. I believe God will raise up many men to lead these groups. They may be individual churches at the present time and later join other churches of the

remnant. They may be home groups. Some of them may yet to be formed. They may even be just one individual.

It will be critical that everyone who is called to be a part of the remnant know his or her exact place and group. God is presently placing His people in strategic locations. Many Christians are telling me God has had them suddenly move to a new location in America, and most don't know why. The same is happening in other parts of the earth. He may even move you to another country.

You may know of some remnant groups, but none may be the group God wants you in. You will have to be in the correct group. God will reveal to believers where they are to go, but they may not seem like logical places; believers will have to do what God says, not what their minds logically choose. This will be difficult; it is important to know and have faith.

If you have been sensing that you must move to a different location, it's probably because God

is guiding you to your group. Many members of the remnant will be moving in the next few years. If God is stirring within you to make a move, pray and fast to find out exactly where you are to go; mistakes may end up costing you your life. Many people are already where they are supposed to be. All you must do is pray and find your assigned group.

Even after you find your assigned group, you will have to seek God for the next steps you are to take. Where do we go for a dwell? What do we take with us? How will God provide our daily needs? Do we purchase a house? Do we rent?

Each group is going to vary in size and location. Some will be relatively close to others, while some will be distant from others. There is no one formula for the groups composing the remnant. Some will experience the miracles of God for their daily needs, while others will have been prepared through existing structures or building new structures.

God will send groups to places where water will just always be there. Others will farm. Some may even be instructed to build their own shelters. Some groups may help other groups that lack necessities. Each group is going to be different.

I do not know if all the groups are to be interconnected or how God will organize them. He has revealed to me only that He will form the groups and raise up their leaders. It may be that God wants us all interconnected, but whatever He has planned will happen. We all need to do what He shows each of us; this is our responsibility.

The remnant will lean greatly upon God; the remnant will experience thousands of God's miracles, and it will be an exciting time.....

CHAPTER 4

WHY THE JUDGMENT?

God has already started a complete annihilation of every person who has chosen rebellion instead of goodness to Him and others.

Why has God decided to bring such an extreme form of judgment upon us men on the Earth? Why should God destroy these nations and other countries? The answer is simple. Just as in Noah's days we have become immersed in sin and wickedness. We have become a corrupt self-centered wicked people. We have set ourselves up as our own god. For the past thirty years, God has been sending His prophets to warn the World of its sins, but we have ignored the warnings and have

continued in our wickedness.

Total extermination will come when the majority of people in a country have set their hearts in rebellion against morals and goodness. Our present generation has reached a point of moral depravity and wickedness that warrants God's judgment. Across this earth, men, women, children, teenagers, and the old and retired have chosen to rebel against the statutes and laws our founding fathers. The majority of a once-righteous population has become the minority. The population, as a whole, has determined that rebellion against morals is a way of life.

Rebellion permeates all lifestyles in every aspect of our daily affairs. Rebellion has taken on all kinds of forms and ideas and has become the norm in the Earth. The present thinking is that if you aren't rebellious, you're abnormal. No one teaches the opposite of rebellion, which is submission.

We teach ourselves and children that it's okay to sin as long as we don't get caught.

No thought is given to individual integrity. All countries, even its churches, has drifted away from submission and humility, from morals, integrity, and righteous living. The World has redefined itself; rebellion gets results, while submission takes too long. Selfishness wants everything now; humility requires too much work and patience.

Most people have turned from God, from goodness, and from moral values. When a society does this, God will remove that society for the sake of the remaining good, the upright, and the morally correct. Once God has begun, He will not relent unless those subject to judgment repent of all their wicked ways. This has only happened once in history. The Earth is not going to repent from its wickedness. We are at a point of no return. Instead, we will witness a huge spike in

corruption.

Everyone claims to be doing good and making right decisions, but everyone is really doing evil and wicked things. A person's good deeds and acts do not counterbalance his or her wicked ways and deeds.

Judgment from God is directly related to our "moral condition"; our present state of beliefs is morally depraved. Morals are nothing more than having the innate knowledge of knowing right from wrong. Depravity is having gone from knowing morals to ignoring them, from acting morally to acting in a depraved fashion and not realizing the difference.

Once the conviction of guilt is suppressed, wrong acts appear to be right. Moral depravity means losing the convictions of guilt for wrongs committed. The world population has reached a place of such moral decay; we as a race no longer have any intentions of turning back to a life founded on morals and righteousness.

When a murderer has killed enough times, he loses his conviction that murder is wrong. Adulterers who have committed adultery several times no longer feel guilty about it. The same applies to thieves and liars and all acts of wrongdoing.

It's too easy to suppress the God-given knowledge of good and bad. When people ignore their guilt long enough, they lose the conviction that their acts are wrong. People no longer see their evil ways; they have blinded themselves to the truth through suppressing their convictions.

No thought is given to individual integrity. All countries, even its churches, has drifted away from submission and humility, from morals, integrity, and righteous living. The World has redefined itself; rebellion gets results, while submission takes too long. Selfishness wants everything now; humility requires too much work and patience.

Most people have turned from God, from goodness, and from moral values. When a society does this, God will remove that society for the sake of the remaining good, the upright, and the morally correct. Once God has begun, He will not relent unless those subject to judgment repent of all their wicked ways. This has only happened once in history. The Earth is not going to repent from its wickedness. We are at a point of no return. Instead, we will witness a huge spike in corruption.

Idols Worship

Modern man's idols are different from those of ancient men. Because of their lack of technology, ancient men were limited in the types of idols they could create. Today, because of technology, our idols have become sophisticated. We can even make modern idols entertain us. We may not

physically bow to our technological idols, but we worship them by sitting on our butts; we bow down to them in our hearts.

The basis of all idol worship is our evil nature. We were designed by God to worship someone or something, hopefully God. Since the fall of Adam and Eve, we now have a void or emptiness within that can only be filled by God, but we try to fill it with someone or something other than God. This is idol worship. We cannot control the emptiness within since Adam and Eve's fall.

New idols are being invented across the Globe. To explain what idols are, we must first understand a little about our nature. We have the need to worship something or someone; we are born with this need.

God created us with the need to be filled with Him. Adam and Eve had and enjoyed a friendship and relationship with God. They had the Holy Spirit filling this need in them. He conversed with

them, and they fellowshiped with Him. When Adam and Eve rebelled against God, they were cut off from this direct relationship with God. Their physical nature was declared to be evil because they had turned to the desires of the flesh. Since then, for us to return to a relationship with God, we must be either restored to our original spiritual nature or be freed from Gods original judgement against man, A Bible lesson will help clarify the situation.

God's Sheep in Rebellion

Never have there been so many churches in the world as we have now. America has done more to evangelize the world than any other nation. America has sent out more missionaries than any other country, all in the last two hundred years.

But now, the very nation that has done so much has fallen prey to the forces it once stood against.

God's people have become rebels in sheep's clothing. This generation has rejected the church in search of its own pleasure. God's people have played into the hands of the seduction of prosperity and pleasures, the traps of the world. This always occurs when shuts off His power from flowing in a church group – the church becomes dead.

Today, the churchgoers, no longer obey the commands of the Lord that come from the Bible. They no longer seek after God. They no longer take heed of God's warnings. They spurn correction and discipline. They have taken their eyes off what God is doing and have placed their attention on luxuries. They partake in worldly things and still try to enjoy the benefits of God's blessings. They turn their attention from their callings from God. As a result, they grow lukewarm and lethargic and eventually dead to God.

To get revived, God's people expect the shepherds to do this work for them, but true revival comes from individual hearts. Real revival is when you get back with God. God's people have not learned to keep themselves hungry for God. Instead, they find themselves searching all over for more of God. They look for a church able to supply them with all their wishes, needs, and desires instead of going to God Himself.

Those who are still alive do not know how to grow up into fully developed mature godly folks. Few people of God know how to keep other men and women well developed in God. Worse yet, there are only a few shepherds in America who know how to help converts mature in their new faith. Most shepherds can get their congregations into only the first years of spiritual infancy. As a result, God's people become dissatisfied and start looking for more of God in other churches.

America is full of church-hoppers; most never discover what they are looking for because they

don't know what they need. They become dysfunctional and lukewarm, and in time, they give up and backslide. Who is to blame? The shepherds blame their sheep, while the sheep blame the shepherds. The real people to blame are the individual believers, from the shepherd down to the new convert. Each person is responsible for his or her own actions and will give account of their rebellion.

CHAPTER 5

MY TESTIMONY

I was born in Aurora, Colorado, on November 10, 1953, at Fitzsimons Army Hospital. I grew up in Aurora, but because my dad was in the air force, I spent a few years in other places. Dad kept returning to Denver for various reasons and decided to settle in Aurora (a suburb of Denver) after twenty years in the air force.

My mother took me to a Baptist church when I was young. She had known the pastor for many years. I spent the first years of my life going to that church with her. I first met Jesus at this church. One Sunday, when I was ten, I listened to the pastor preach about salvation in Jesus. As he spoke, I could feel a tugging and a gentle nudging in my heart to accept Jesus into my heart and life. I knew this was God moving upon my heart. At

the end of the service, I saw the pastor. He led me in a prayer, asking God to forgive me of my sins and wash my heart clean. We asked Jesus to dwell with me.

After that prayer, I felt good, but nothing seemed any different except I had the conviction that I had humbled myself before God Almighty because He had tugged at me within.

On my way home, I could sense I had been forgiven and somehow knew Jesus. I felt so clean and pure in my heart. I became excited. I had met the God of the universe. I had met and felt Jesus and His forgiving power.

As that day progressed, I felt even cleaner, and I felt God's presence. The next day, I was still amazed I had God's Son visit me within. All I could do was rejoice. I wanted to experience more of this good, great God who was so pure. I had never in my life felt such purity and cleanness and love all at once coming from Jesus and the Father. On the third day, something was very different. All the good, clean, pure feelings

were gone. That morning, great doubts flooded my mind that what had happened with God hadn't really happened. For several hours, as these doubts pounded me, I was confused. What had happened? Toward the end of the day, I somehow came to understand that this was the devil. I had never had a confrontation like that before, but I knew it was the devil attacking me.

That evening, I regained the feeling of the peace of God. I'll never forget that first encounter with the devil just as I'll never forget the first day, I met Jesus and God Almighty. That encounter with the devil was the first of thousands of battles and encounters I have had with the devils of Satan's kingdom. I not only met God, but I also met Satan's demons.

What was difficult as the weeks turned into months and years was that no one ever taught me about Satan's kingdom. I had many difficult struggles the first ten years of my life (from 10- to 20-years-old.) I literally didn't know anything

about Satan and was at the mercy of my ignorance. Yet, through all those difficult struggles, I never backslid from God and never forgot that experience.....
